

100% Naturally derived Alcohol Gel

Formulation with only naturally derived ingredients without using the polymers.

Can be quickly used even in the environment where you cannot wash your hands such as outside.

Rinse-free hand soap with 60 vol% ethanol.

Please use it to create products with keywords such as "additive-free" "organic" & "natural".

COSMEDIA makes it possible Originality

1. Distilled water producible from more than 60 botanics

"Water" crucial for the formulation of cosmetics will be indicated at the first part of the all ingredients. Also water is able to be included as the substrate water for the formulation. We will originally develop distilled water matching the brand concept using the botanic procure domestically/outside of Japan.

2. Essence producible from more than 80 botanics

In order to appeal the effect of the product giving originality to the essence contained will work as advantage to make originality with other companies. Our company procure natural/organic plants through our original route both in & out of Japan & contain them into product development according to needs.

3. Mixed essential oil or COSMOS applicable fragrance

Mixed essential oil that can feel the direct odor of the botanic, COSMOS applicable fragrance that can express the odor like the perfume. Both will be originally developed under your company.
